Innovating the future of hygiene

## ENTRANCE HYGIENE SOLUTIONS

## ABOUT COMPANY

At Hyginest, We specialize in Washroom Hygiene & Smart Sanitation, Cleanroom hygiene and disposable Hygiene Essential, Entrance Hygiene Solutions, Floor Cleaning & Waste Management. Delivering innovative hygiene solutions that enhance cleanliness and convenience. With ready stock and fast delivery of across India, we ensure our customers get the best products without delays.

Our focus is on quality, efficiency, and sustainability, offering advanced products and modern hygiene systems for businesses that prioritize health and compliance.

We're not just selling products—we're transforming hygiene standards with cutting-edge technology and unmatched service.

# WHO

# WHAT

# WHY

## WHO WE ARE

Hyginest is a leading provider of Smart, Sustainable & Futuristic Hygiene Solutions in India.

We serve as a trusted partner for industries that demand high standards of cleanliness, automation, and compliance — including Pharma, FMCG, Hospitality, Healthcare, Corporates, and Institutions.

## WHAT WE DO

At Hyginest, we go beyond supplying products — we deliver **integrated hygiene systems** that are smart, efficient, and built to last. Our Core Solutions Include:

- **Smart Washroom Automation:** Hand Dryers, Sensor Taps, Soap Dispensers, Urinal & WC Sensors
- **Entrance Hygiene:** Air Curtains, Insect Killers, PVC Strip Curtains
- **Cleanroom & Disposable Hygiene:** SS Wash Stations, Sole Cleaning Machines, Hygiene Stations
- **Floor Cleaning & Waste Management:** Scrubber Driers, Vacuum Cleaners, Bins & Trolleys

Each solution is designed to enhance user experience, support regulatory compliance, and reduce operational hassle.

## WHY HYGINEST

- End-to-End Support – From entry to exit, we cover it all
- 200+ SKUs – One partner, hundreds of solutions
- Fast Delivery – Clean solutions, delivered fast
- After Sales Support – We support what we sell

# POWERFUL AIR CURTAIN

Hygienic & Energy-Efficient Solutions

# CENTRIFUGAL AIR CURTAIN

## Enhance Comfort & Energy Efficiency

Hyginest air curtains create an invisible barrier of high-velocity air, preventing the entry of dust, insects, and outdoor pollutants while maintaining indoor temperature. Designed for commercial, industrial, and retail environments, our air curtains improve hygiene and reduce energy consumption.

### Key Features:

#### High-Performance Airflow

Ensures effective separation of indoor and outdoor environments.

#### Energy Savings

Minimizes air conditioning loss, reducing heating and cooling costs.

#### Enhanced Hygiene

Blocks dust, pollutants, and insects from entering.

#### Low Noise Operation

Engineered for quiet performance without disruption.

#### Sleek & Durable Design

Available in modern aesthetics with robust construction.

#### Easy Installation & Maintenance

Designed for seamless integration with various entrances.

HYGINEST

# SLEEK & LOW NOISE AIR CURTAIN

Powerful Performance • Sleek Design • Ultra-Low Noise

**Hyginest** air curtains are engineered to deliver **exceptional performance, modern aesthetics, and whisper-quiet operation**. Designed for commercial and industrial applications, they create an invisible air barrier that effectively prevents dust, insects, and pollutants while maintaining indoor temperature efficiency.

**HYGINEST**

# PVC STRIP CURTAINS

## Flexistrip

PVC Strip Curtains are an ideal solution for controlling temperature, reducing dust and noise, and maintaining hygiene in various commercial and industrial spaces. Designed for high performance and durability, these flexible curtains offer an economical way to divide spaces without compromising accessibility or visibility.

# FOOD GRADE PVC STRIP CURTAIN

## Efficient • Durable • Hygienic

PVC Strip Curtains are an ideal solution for controlling temperature, reducing dust and noise, and maintaining hygiene in various commercial and industrial spaces. Designed for high performance and durability, these flexible curtains offer an economical way to divide spaces without compromising accessibility or visibility.

### Key Features:

#### Temperature Control

Maintains ambient conditions in cold storage, clean rooms, and production areas.

#### Energy Efficient

Minimizes energy loss by reducing air exchange.

#### Transparent Visibility

Ensures safety and clear visibility through partitions.

#### Durable & Flexible

High-grade PVC designed to withstand heavy traffic and harsh conditions.

#### Custom Sizes

Available in various widths and thicknesses to suit every requirement.

#### Easy Installation & Maintenance

Modular strips for hassle-free replacement and cleaning.

way to maintain  
hygiene & efficiency.

HYGINEST

# INDUSTRIAL PVC STRIP CURTAIN

**CLEAR BLUE PVC STRIP CURTAIN**

Clear visibility ensures safe movement and allows natural light to pass through, making these strip curtains ideal for areas with frequent human or vehicle traffic.

The subtle blue tint enhances cleanliness and is UVC stabilized, making them perfect for industrial, commercial, and food processing spaces. Durable, flexible, and low-maintenance, they are suitable for clean rooms, warehouses, kitchens, and retail entrances - ensuring hygiene without compromising accessibility.

**ANTI INSECTS PVC STRIP CURTAIN**

Anti-insect PVC strip curtains are specially designed to repel insects by filtering out UV light, which attracts pests. Ideal for food processing units, kitchens, warehouses, and retail areas, these curtains help maintain hygiene and prevent contamination. The vibrant yellow color acts as a visual barrier while allowing light transmission and visibility. Durable, flexible, and easy to clean, they also help control dust, airflow, and temperature - making them a reliable solution for pest control and environmental separation.

Model	Strip Width	Thickness	Roll Size
Clear Blue	200mm & 300mm	2 mm - 5mm	50mtr
Anti Insects	200mm & 300mm	2 mm & 3mm	50mtr

**HYGINEST**

# INDUSTRIAL PVC STRIP CURTAIN

**DOUBLE RIBBED PVC STRIP CURTAIN**

Double Ribbed PVC strip curtains are perfect for high-traffic areas with frequent vehicle movement, such as loading and unloading docks. Their ribbed surface resists scratches and impact, enhancing durability and extending lifespan. These curtains ensure clear visibility, smooth passage, and effective separation of work zones. They also help control dust, noise, and temperature, making them ideal for demanding industrial and commercial environments that require reliable and long-lasting solutions.

**FREEZER / POLAR PVC STRIP CURTAIN**

Freezer / Polar PVC strip curtains are specially engineered to perform in extremely low-temperature environments, such as cold storage rooms, walk-in freezers, and refrigerated warehouses. It help maintain consistent internal temperatures by minimizing cold air loss and reducing energy costs. They also act as a barrier against moisture, frost, and contaminants, while allowing safe and easy passage for personnel and equipment. This strip curtains offer excellent durability, visibility, and thermal insulation.

Model	Strip Width	Thickness	Roll Size
Double Ribbed	200mm & 300mm	3 mm & 5mm	50mtr
Freezer / Polar	200mm & 300mm	2 mm & 3mm	50mtr

# HYGINEST

## INDUSTRIAL

# MAGNETIC PVC STRIP CURTAIN

(300mm x 2mm - Clear Blue Transparent).

Hyginest Magnetic PVC Strip Curtain is an advanced hygiene and environmental control solution designed for industrial and commercial applications. Made from premium-quality clear blue transparent PVC, it provides excellent visibility, easy accessibility, and superior sealing performance through its built-in magnetic closure system. It ensures hands-free operation while maintaining hygiene and energy efficiency in temperature-controlled zones.

## Key Advantages Over Regular Strip Curtains:

Feature	Regular Strip Curtains	Magnetic Strip Curtains
Air & Dust Sealing	✖ Gaps remain	✓ Tight magnetic closure
Insect Entry Prevention	⚠ Moderate	✓ Highly effective
Cold Air Retention	⚠ Partial	✓ Efficient
Hands-Free Operation	✓ Yes	✓ Yes
Aesthetic & Clean Look	⚠ Basic	✓ Premium appearance

## Applications / Where to Use:

Ideal for pharmaceutical manufacturing units, food and beverage plants, cleanrooms, laboratories, cold rooms, warehouses, factories, and commercial kitchens where hygiene, safety, and energy conservation are essential.

# PVC STRIP CURTAIN

Choose Hyginest for a smarter investment because when it comes to hygiene, quality should never be compromised.

Low-quality PVC strip curtains may seem cost-effective, but they turn yellow quickly and wear out, leading to frequent replacements and higher long-term costs.

Hyginest offers premium-grade PVC strip curtains that are crystal clear, highly durable, and designed to withstand daily wear and tear. Unlike low-quality options, our curtains are long-lasting, maintaining a clean and professional appearance over time. Ideal for industrial, commercial, and cleanroom environments, they enhance hygiene, improve safety, and support energy efficiency—making them a smart, long-term investment for any facility.

With professional installation and tailored sizing, Hyginest curtains offer long-term value and performance.

Examples shows how **low-quality plasticizer-based PVC strip curtains tend to turn yellow in a short period of time**, compromising both appearance and hygiene standards.

**HYGINEST**
